

# New York Stock Market

New York, December 12.—Union Pacific was again the centre of activity in the stock exchange today. It was further advanced by a rise in its price. Early in the day it broke 41-1/2 points to 153-1/4, the lowest figure since 1908. Later it rose with a rush to 155-1/2, a gain of 1-1/2 on the day. The market as a whole showed a disturbance. Although the traders had no further information as to the cause of the unsettlement and speculative sentiment was confused, there were less apprehensions on the part of the security holders. The recent decline in commodity prices was attractive and commodity investment buying was reported. There was no recurrence of widespread liquidation of high grade investment stocks, but on the other hand offerings were taken with a certain steadiness to hold up the market level. The reaction of the market as a whole did not respond as readily as yesterday to the break in Union Pacific. There was heavy selling of reading, and it yielded 2-1/2, but when declines were comparatively small, steel was heavily traded in, but was well taken.

Evidence of the strength of the general market led to increased buying, and as Union Pacific began to rally there was a scramble of the shorts to cover. The rise in the price of the stocks was more violent than the decline had been at one time during the last ten days of the upward rush. The market, which had not gone down with Union Pacific, went up with it and the upward movement rose to two points above yesterday's close. Trading grew quiet at the higher level, and although prices eased off toward the end of the day there was no further unsettlement. There was some further calling of loans by banking institutions on account of the shrinkage in value of collateral and the closing out of weekly margin accounts was an unsettling factor.

Bonds shared with stocks in the recovery, with convertible issues making the best gains. Total sales, par value, \$2,567,000.

New York, December 12.—Money on call easier, 4-1/2 to 5 per cent; ruling rate, 4-1/2; time loans easier, 60 days at 4-1/2 to 5 per cent; ninety days, 6-1/2 to 7 per cent; six months, 7-1/2 to 8 per cent. Prime mercantile paper, 6 per cent. Sterling exchange, 24-1/2 to 25; francs, 5-1/2 to 5-3/4; in change strong, with actual business in bankers' bills, at \$1.11 for sixty-day bills, and at \$1.12 for demand. Commercial bills, \$1.10 to \$1.12. Bar silver, 62 3/4. Mexican dollars, 49-1/4.
